Partnership Announcement

Partnership: Cold Front Distribution

Schreiber Digital Labs is excited to partner with Cold Front Distribution, a direct-store delivery supplier that turned to The Hive to automate their inventory management process.

"We chose The HIVE over the competition based on its ease of use, intuitive interface and fast-track training," said Mike Swenson, President of Cold Front Distribution. "Schreiber Digital Labs' willingness to invest in the relationship made the decision easy."

We look forward to helping Cold Front further increase their overall production and visibility to all things inventory related.
